VOLUME XLVIII

MARCH/APRIL 2017

No. 2

Our mission is to be the leading walk-in and blast chiller/shock freezer manufacturer by providing superior products and services that exceed the expectations of our customers.

Giordano's Distribution Center

"Its creation began in a small northern Italian town near Torino, Italy. Mama Giordano was famous around town for her exquisite cooking. Of all her renowned dishes, her most beloved meal was her "Italian Easter Pie". Mama Giordano would serve this double-crust, cheese stuffed masterpiece on special occasions. This pizza pie became a sacred tradition in the Giordano family and a legend in the town of Torino. Years later, Italian immigrants Efren and Joseph Boglio moved to Chicago to start their own pizza business. The brothers introduced their Mama's recipe for stuffed pizza. In 1974, on Chicago's historic south side, Efren and Joseph opened the first Giordano's in the world. Over the next 40 years and counting, millions of happy and loyal fans as well as hundreds of critics call Giordano's the city's "best" stuffed pizza! The rest is history you can still taste today, along with our other great starters, fresh salads, outstanding pastas and unique sandwiches." (Source: www.giordanos.com)

The actual size 58'8" x 33'7" x 20'0" high warehouse walk-in cooler/freezer combination pictured is one of two **Thermo-Kool** walk-ins which recently shipped to Giordano's Distribution center in Henderson, Nevada. The uniquely designed warehouse walk-in exemplifies **Thermo-Kool's** flexibility in design and capability of *maximizing cold storage space* by utilizing the DURATHANE high-density panel perimeter to manufacture in 1" panel increments. The strength and durability of **Thermo-Kool's** panel design is a great fit for the project to ensure the *quality* and *longevity* on which both *Giordano's* and **Thermo-Kool** have built their reputations. Both the warehouse walk-in cooler/freezer combination and the 11'4" x 33'7" x 7'6" high walk-in cooler have a white stucco galvanized interior with LED light fixtures in the ceilings which helps to *maximize illumination*, a significant attribute for the 20' height of the warehouse walk-in cooler/freezer combination. All of the walk-in compartments were designed as floorless which is the ideal application to accommodate the rolling traffic in the warehouse cooler and freezer compartments. The 36" x 76" and 36" x 78" **Thermo-Kool** entrance doors which were provided in the coolers consist of three hinges, a 14" x 14" peep window with heated frame and glass, LED light fixtures and ½" aluminum treadplate kickplate 48" high on the interior and exterior. Both the warehouse walk-in cooler and walk-in freezer

have a 6'0" x 8'0" electric sliding door with ½" aluminum kickplates 48" high on the interior and exterior, vinyl strip curtains, LED lights, and 14" x 24" peep windows. Additional accessories provided were temperature alarms for each compartment and ½" treadplate wainscot 48" high on the exposed exterior for protection from moving product in and out of the walk-in compartments. The ceilings of the of the warehouse walk-in cooler and freezer were designed to be supported by **Thermo-Kool's** exterior angle ceiling suspension system.

Thermo-Kool Customer Account Representative,

Erin Flynt worked on the project with **Steve Wishon**, Project Manager and **Janice Dziuban**, Senior Assistant Project Manager with Edward Don & Company, Woodridge, Illinois, and **Thermo-Kool** Marketing Agent, **Joe Wagner** with Cassidy's Proline, Lombard, Illinois.

Thermo-Kool at NAFEM 2017

Thank
 you

FOR STOPPING BY!

For more information about Thermo-Kool walk-ins and blast chillers/shock freezers, contact your Thermo-Kool Customer Account Representative at 800-647-7074 or your local Thermo-Kool Marketing Agent.

THE “CHILLING” FACTS

Versatility can be a cost savings to you. Thermo-Kool roll-in blast chillers can be priced with different metal finishes on both the interior and exterior in lieu of standard stainless steel finishes.

To learn more about Thermo-Kool blast chillers and shock freezers contact your Thermo-Kool Customer Account Representative at 1-800-647-7074 or your local Thermo-Kool Marketing Agent.

EMPLOYEE OF THE MONTH

Bud McKee
Utility Specialist,
Foam Department

Bud McKee was selected Employee of the Month for January, 2017. McKee was nominated by Thermo-Kool Production Supervisor Chad Green who commented, "Bud is always willing to do what is asked of him to help out his department. He comes in early, stays late, and will even work through break and lunch if needed. Bud is a great leader in the foam department and takes pride and ownership in his work." Thermo-Kool Plant Manager David Whitehead also commented, "Bud is a team player who is always looking out for the best interest of the company and his department. Bud always uses his time wisely." McKee has been with Thermo-Kool since November, 1999.

HOLIDAY NOTICE

Thermo-Kool's offices and factory will be closed **Monday, May 29**, for the Memorial Day Holiday.
